

THE CASE FOR PLACE

Joining up new demands for technology, care
models and services in the health sector

7th March 2019

Royal Society of Medicine, Chandos House, London

Sheffield has a reputation as a forward-looking city, with a number of headline assets such as the Advanced Wellbeing Research Centre (AWRC), National Centre for Sport & Exercise Medicine, Sheffield School of Health and Related Research and the Olympic Legacy Park proving established foundations for growth. The city is fast becoming a leading part in the future of health in the UK, particularly within specialisms in wellbeing and prevention, rehabilitation and care pathways research. The City Region NHS footprint is also a pioneer Integrated Care System, and has an exceptional record in healthcare, being rated outstanding by NHS Improvement. The ambition now is for Sheffield to work with those parts of government looking at the same sectoral challenges, building on its proven strengths, to establish the region as a major national centre for health and life sciences innovation.

The event in Central London on 7 March 2019 will bring together the nation's most eminent figures in government, research and industry and will discuss the best ways of tackling the Industrial Strategy's Grand Challenges, enabling innovation in life sciences and sustaining continued excellence in health technology.

Key themes to be addressed include:

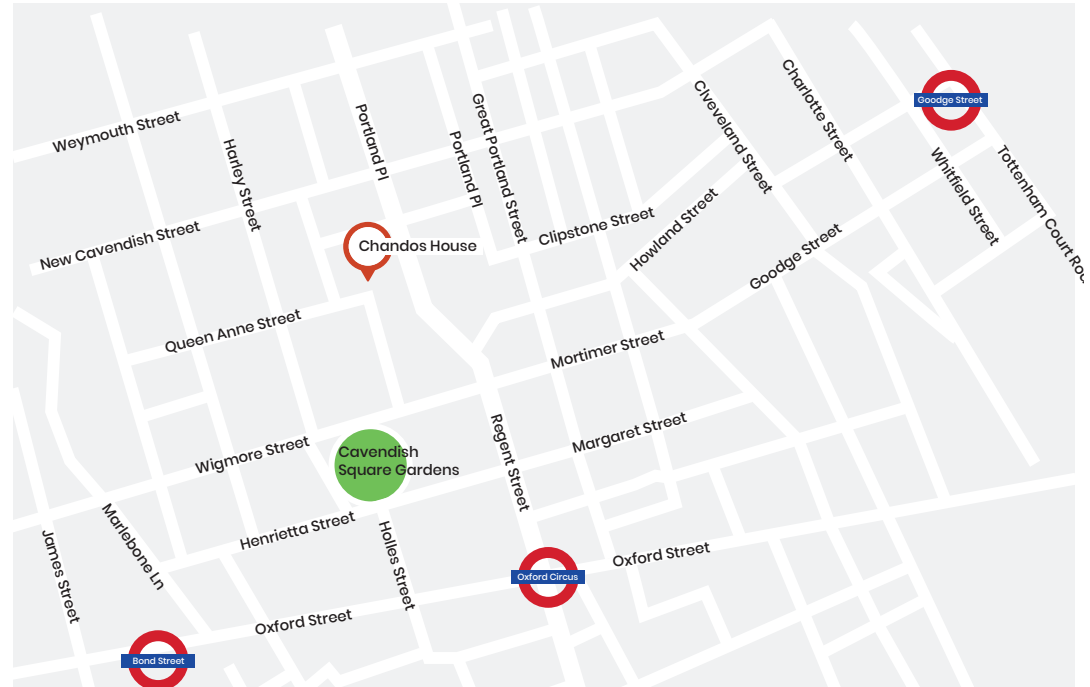

- Sector workforce strategy
- Prevention and whole life care
- Practical translation and application of digital technology

Location:

Chandos House
2 Queen Anne Street
London W1G 9LQ

Chandos House is an elegant Georgian structure in Central London, most renowned through its strong connections with the Royal Society of Medicine. Four minutes walk from Oxford Circus Tube Station, and a 10 minute taxi from London Euston, this fitting venue will host local healthcare technology pioneers in convenience and style.

DragonGate Market Intelligence are always keen to discuss our programme of projects and events. To find out more how you or your organisation can get involved, please contact:
